Invited!!**

**ALA Multicultural
Theater Project
2011**
~つくって・つながる!~

The annual ALA Multicultural Project is about to begin.

For the past four years around thirty people from between 7 to 10 different nationalities have come together with the purpose of performing on stage. People who are interested in dance and theater, or those who want to interact with foreigners are welcome to join. Every year our participants have had fun learning about their cultural differences and communicating with gestures and body language.

The ALA Multicultural Project, in other words, has become an excellent opportunity for locals and foreigners to meet up and experience good times together. Wont you come and join us for 2011?
